

## Welfare Policy in PBV

**M**embers of Pranburi Houseowners Association (PHA) are equal and autonomous individuals / families who are in Thailand to enjoy themselves alone,- or in community with others.

**A**ll residents in Pranburi Beach Village have an independent responsibility for creating a good living environment. When renting out houses the same rules apply. With due regard to other inhabitants, - we aim for a quiet environment after 2400 (midnight). Noise, high music and noisy-driving should be avoided.

**P**BV has been like a construction site for many years. Also in the future there will be building projects started. This we all have to accept. But,- we should all strive to keep PBV quiet (no noisy work) from Friday 07 PM till Monday morning.

**I**t is each individual house-owners responsibility to get the proper Government acceptance when starting new building- project in PBV. Be sure to advise your neighbors also about the start-time/ end-time of your building project. If large projects are started it is of great help to also inform the Pranburi House Owners Association.

**P**roblems that may occur will be solved in the Thai way, - with a smile.

**D**riving within PBV should be restrictive,-especially during darkness. Speed should not exceed normal fast walking speed.

**K**ee a good look-out/ watch of empty houses in the village. Advise your neighbor if you see or suspect anything wrong.

**R**espect the welfare-rules accepted by PBV house owners.

**E**very member living in PBV should be able to say that she/ he enjoys to live there, and feels like a proud member of the PBV community.
